## Upcoming Special Issue (December - 2018)

### “Business Activity and Entrepreneurship Education: An Effective Path to Associated Competencies”

Entrepreneurship education (EE) affect the development of the human capital, contributing to the generation of value and wealth for society. This call aims to gather submissions dealing with EE, studying them in different contexts and from diverse perspectives. The editors are seeking conceptual, theoretical, and empirical (both quantitative and qualitative) papers that advance the state of knowledge on business and EE towards greater economic growth and higher and better employment in the medium and long term. Authors from different disciplines, such as management, education, social sciences and other disciplines related to entrepreneurship education development issue are invited to submit their papers.

**Journal of Entrepreneurship Education** is looking to publish manuscripts that explore the link between Business activity and entrepreneurship education from a wide range of theoretical, methodological and disciplinary perspectives. Submissions for the Special Issue could relate, but are not limited, to the following topics:

- The relationship between entrepreneurship education and entrepreneurial intention.
- Innovative experiences in the field of entrepreneurship education.
- New models of business and entrepreneurship education in the current digital economy.
- The roles of networks and alliances by individuals as they seek to either found or grow a Business.
- The impact of entrepreneurship education within the social entrepreneurship sector.
- Poverty reduction through business activity and entrepreneurship education.
- The influence of contextual variables in promoting Entrepreneurship.

**Submission Deadline: 15<sup>th</sup> November, 2018**
